

The Kite on the Hill: answers

Year 3 · 11 marks. Accept any sensible answer that is backed up by the text.

1. Bright red (with a long yellow tail). (1 mark)

Finding information (2b). The answer is stated in the first paragraph, so the skill here is finding information in the text.

2. To the top of Windy Hill. (1 mark)

Finding information (2b). Another fact to find, this time in the second paragraph.

3. soared (1 mark)

Word meaning (2a). Children practise matching a word to its meaning. “Wobbled” and “dipped” describe a shaky kite, so only “soared” fits.

4. 1. Maya runs across the grass. 2. The kite lifts into the air. 3. The kite lands in the tree. 4. Grandad has an idea. (2 marks)

Sequencing events. Sequencing shows the child has followed the whole story, not just single sentences.

5. Upset, disappointed or worried, because “Maya’s smile disappeared.” (2 marks)

Inference (2d). The story never says how she felt, so the child must read between the lines and back the idea up with evidence from the text.

6. Thinking hard (about how to solve the problem). (1 mark)

Inference (2d). A small action that hints at a thought is a classic inference.

7. Because string had helped to rescue the kite, so she wanted to be ready if it happened again. (1 mark)

Explaining from the text. The child links the ending back to the problem and its solution.

8. The kite got stuck in the tree. Grandad tied string to a stick, threw it over the branch above the kite, and they pulled until the kite slid down. (2 marks)

Summarising (2c). Summarising a problem and its solution in one or two sentences is a key reading skill.
